

Elemar Patch™

NDC 72835-502-02

Contents:

Lidocaine 5% Patch (30ct)
Menthol 6% Roll-On Gel

Typical Prescribing Directions:

Apply 1-2 patch(es) to affected area(s) for 12 hours.

Remove for 12 hours.

Apply Roll-on gel 2-4 times only when patch is removed.

Indicated For:

Relief of pain associated with post-herpetic neuralgia. It should be applied only to intact skin.

Contraindications:

Elemar Patch is contraindicated in patients with a known history of sensitivity to local anesthetics of the amide type, menthol, or to any other component of the product.

Warnings:

For external use only. Do not use on wounds or damaged skin. When using this product: avoid bandaging tightly, avoid contact with eyes, keep out of reach of children.

Hands should be washed after the handling of lidocaine patch 5%, and eye contact with lidocaine patch 5% should be avoided. Do not store patch outside the sealed envelope. Apply immediately after removal from the protective envelope. Fold used patches so that the adhesive side sticks to itself and safely discard used patches or pieces of cut patches where children and pets cannot get to them. Lidocaine patch 5% should be kept out of the reach of children.
